Ship to:
Servants for Sight
582 Perry Ave.
Greenville, SC 29611

We train missions groups to provide eye clinics and eyeglasses on their own missions trips. Using a device called a focometer, your team can determine the eyeglass prescription for individuals you are serving. We will provide your team with the training, focometer, and eyeglasses needed to give the gift of sight to those in need.

Groups must submit the application form with this informational form to reserve their supplies for their trip. SFS attempts to fill all orders, but we may not be able to fill an order if supplies are not available. If you are in the Greenville, SC area we ask that you come to our offices to pick up the supplies and receive training for the focometer if needed. We are located at 582 Perry Ave, Greenville, SC 29611. If you will need the supplies shipped to you, please ensure to write the shipping address on the application form.

We do not require a donation to participate in this program; however, we do purchase all of the supplies, so we ask that your team consider supporting this program by covering the cost of the glasses purchased if at all possible. SFS's average cost of a standard order of glasses is 600 dollars for the myopic glasses and 140 dollars for the reading glasses. We appreciate you giving the gift of sight to those in need!

The focometer, and distance / near charts need to be returned within 1 week of your return from your trip. Please include the follow up form with the returned supplies.

A standard order of glasses is listed below: If you would like a custom amount please list.
